Casino Tropez has something for everyone, from the seasoned professional gambler to the newcomer, with several options that allow you to control the playing environment, such as card size and sounds effects. REVIEW [EUROPA CASINO](#)

### Webmaster's Tip:

To save time, my recommendation is to download Europa now, so you can play soon after reading this article.  
(Yes...it's that good!)

I always look forward to downloading a new casino, and Europa's realistic graphics are crisp, rich and welcoming with 71 games powered by cutting-edge Playtech software – so you are assured of a top quality download.

### [Best Online Casino from Europe:free games!](#)

First impressions are that Europa's lobby is probably the most attractive I've ever seen. You are welcomed by relaxing music and an animated water fountain sculpture, surrounded by several famous European landmarks like the Eiffel Tower and the leaning tower of Pisa. I also like Europa's blue tables – not that I don't like the classic "color of money" green - but it's a refreshing change and a nice touch.

I also like the generous \$2400 annual bonus -especially if you take in consideration that Europe Casino offers an additional 10% or 15% bonus if you don't make your deposit with credit card but with one of the alternative payment methods, like NETeller, Citadel or Moneybookers!

Another perk to playing at [Europa Casino](#) is the generous Comp Points Program. The more you wager, the more points you get, that you can then cash in at any time. Comps make a real difference to your bank roll whether you're a small player or a high roller, so Europa scores top marks there. Europa is also owned by an established group with a great reputation, so rest assured that your winnings will be paid on time and in full.

Overall, Europa impressed me with the same style, elegance, and charisma of a top European land-based casino and I'm sure you'll agree. In conclusion, I love Europa. It's clear from the quality of the software that a lot of imagination and hard work has gone into Europa's creation – something that is sadly lacking in many other online casinos out there.

So, if you haven't downloaded [Europa Casino](#) already, do so now, and get ready to enjoy a "cultural celebration of famous European landmarks" and an exciting new chapter in online casino entertainment – and don't forget your \$2400 annual bonus!

The thrill and atmosphere of Las Vegas comes to your home with this exciting casino from the highly respected PlayTech stable. Vegas Red will blow you away with superb graphics, the latest award winning Playtech software, & 71 fantastic games. Offering the best bonus structure anywhere on the net - \$888 FREE [Vegas Red](#) including 1st, 2nd, 3rd and 4th deposit bonuses of over 100%, 25%, 50% and 100% respectively. Highly Recommended!

Vegas Red will simply blow you away with all the thrills and atmosphere of "Sin City" Las Vegas. Vegas Red boasts seriously superb graphics, with 71 fantastic games and the best bonus structure I've seen anywhere!

\$888 Free is more than enough to show that Vegas Red seriously wants your business, and their generous Comp and VIP programs are in place to further reward your loyalty.

The \$888 Free Welcome Bonus includes 1st, 2nd, 3rd and 4th deposit bonuses of over 100%, 25%, 50% and 100% respectively. Comp points are automatically awarded as you wager, and can be converted into cash – so the more you play, the more extra cash you get. Comp points also count towards determining your VIP level, but high rollers can enter the VIP Fast-Track by contacting the VIP Casino Manager.

As a person that normally enjoys playing solo, I felt the urge to invite some friends to join me. This is a great option for Roulette, Sic Bo, Blackjack, Baccarat, Casino War and Red Dog, that allows you to invite two friends to join you in the casino. From the lobby, all you do is mouse over any of the above games and click on the Private Group option. You then enter a password of your choice and send it to your friends so that they can enter your Private Group with this password.

What could be better? Gambling with two of your friends online in a private environment, AND you can converse via online chat!

Another option for Blackjack is Multi-hand where you can play three hands at once, or you can choose Multiplayer, where you get to join other people at the tables and can get to know each other via online chat.

[Vegas Red](#) goes all out to offer you the maximum with true “Vegas-like” ambience and the feeling that anything can happen at any time, and with nine Progressive Jackpots waiting to be won, Vegas Red becomes more real by the second.

To sum up, Vegas Red offers a lot more than most – not just in huge bonuses, but also in attention to detail, quality of product and exciting atmosphere. So if you can’t make it to Nevada today, escape to Vegas Red – it’s definitely your best bet!
